

SUPPORT COORDINATION TEAM

If you think you may need support, or would like help with issues affecting your tenancy or quality of life, the specialist staff in our Support Coordination team can work with you to identify the types of support available to help you.

Our aim is to help you work out what your options are, and provide information that will help you decide the best way forward.

We have staff with expertise in a number of areas including mental health, homelessness, domestic and family violence, drug and alcohol dependence, youth and aged care.

HOW DOES IT WORK?

You can request assistance directly from the Support Coordination team, or ask another staff member to make a referral on your behalf.

SGCH staff can also make a referral to the Support Coordination team if they are concerned for your wellbeing or your tenancy, and the team will get in touch to see if you would like their help.

You will never be referred to any external support service without your permission and you can withdraw from the process at any time.

WOULD YOU LIKE TO KNOW MORE?

You can talk to one of our Support Coordinators on **p**: 1800 573 370 or **e**: support@sgch.com.au.
