

Property Assessment

Overview

This policy outlines our approach to assessing the condition of our asset portfolio.

Scope

This policy applies to all properties owned or managed by St George Community Housing Limited and its subsidiaries (**we, our and us**).

Policy statement

We assess the status of all our properties every three years to identify the nature and priority of maintenance tasks.

We assess the condition of our properties using the Property Condition Assessment (PCA) which is in line with Property Assessment Survey (PAS) method developed by LAHC.

Asset Performance Standards

We use PCA to assess the status of our owned and managed properties, which then informs our annual plan and longer-term plans. The PCA assesses property condition, component failure and identifies defects for ten components:

- Fencing
- Internal paint
- External paint
- Floor finishes
- Kitchen cupboards
- Kitchen overall
- Bathroom overall
- Roof
- Windows
- Building Essential Services system components
- We assess the status of each component and rate its condition on a scale of 1 to 10 using two grading tools, initially deterioration (Table 1), then mapped against the age of the component (Table 2). We prioritise repair or replacement of all components ranked 1 or 2.

Table 1- Deterioration assessment guide

Functional Deterioration Rating Guide		Deterioration Rating										
		The tiredness of the entire component excluding the percentage of repair										
		10%	20%	30%	40%	50%	60%	70%	80%	90%	100%	
Repair rating	The percentage of repair required	10%	10	9	8	6	5	4	3	2	1	1
	20%	9	8	8	6	5	4	3	2	1	1	
	30%	7	7	7	6	5	3	3	2	1	1	
	40%	5	5	5	5	4	3	3	2	1	1	
	50%	4	4	4	4	4	3	3	2	1	1	
	60%	3	3	3	3	3	3	2	2	1	1	
	70%	3	3	3	3	3	2	2	1	1	1	
	80%	2	2	2	2	2	2	1	1	1	1	
	90%	1	1	1	1	1	1	1	1	1	1	
	100%	1	1	1	1	1	1	1	1	1	1	

Table 2- Overall rating guide

Overall rating		Age									
		Age of the component (years)									
		1-2	3-5	6-8	9-11	12-14	15-17	18-20	21-25	26-30	31+
Repair rating The percentage of repair required	10	10	9	8	7	6	5	4	4	4	3
	9	9	8	7	7	6	5	4	4	3	3
	8	7	6	6	6	5	4	4	3	3	3
	7	5	5	5	5	5	4	4	3	3	3
	6	4	4	4	4	4	4	3	3	2	2
	5	3	3	3	3	3	3	3	2	2	2
	4	2	2	2	2	2	2	2	2	2	1
	3	2	2	2	2	2	2	2	2	1	1
	2	1	1	1	1	1	1	1	1	1	1
	1	1	1	1	1	1	1	1	1	1	1

We assess deterioration in three domains: function, safety, and appearance.

- Function - the extent to which the component is performing as designed
- Safety - whether the component could cause an injury. Where a component is found to be unsafe, it will be made safe and further maintenance made a priority (repair or replacement).
- Appearance - the overall appearance of the component and whether this has any impact on the amenity.

We also generate an overall portfolio score (average score of all properties), with the aim of improving this score year on year where possible to do so. The condition scores are broken down to property typologies and segmented into age ranges to better understand the aging and wearing profiles of assets and components to inform future maintenance priorities.
